Mariana Santos

Frontend Developer

Passionate about creation and technology.
Wide experience developing **accessible and responsive web and mobile applications**.

Experiences —

Junior Web Developer

Choveu Agency

03/2022 — present: **1 year**

At Choveu, I create and maintain websites using Wordpress and technologies such as **HTML, CSS, SCSS, and PHP**. I am constantly improving my skills in **web development and seeking innovative solutions to meet the projects needs**.

- Built frontend applications for multiple clients. Most especially Wordpress applications.
- Improved accessibility, SEO and overall experience of products.
- Built Landing Pages for events, webinars, products and others.
- Built e-mail marketing with several platforms, such as OCE and RD Station

Education —

Bachelor's Degree in Analysis and Systems Development

FIAP

08/2022 to 08/2024 — present: **2 years**

- Desenvolvimento de **aplicações práticas full-stack** a partir de desafios propostos por diversas empresas parceiras da FIAP.
- Entrega de **projetos reais** utilizando a **metodologia SCRUM**, garantindo uma gestão eficiente e conclusão dentro do prazo.
- Engajada ativamente em **eventos de tecnologia, palestras e hackatons**.

Systems Development Technician

ETEC de Guaianazes

02/2019 — 11/2021: **3 years**

- Desenvolvimento de **aplicações full-stack web e mobile** proposta pelos professores.
- Participação em diversas aulas de **robótica** com Arduino e a linguagem C.
- Engajada ativamente em **eventos de tecnologia, palestras e maratonas de programação**.

Featured Project —

Investium

B3

Investium was created to demystify IPO investments in Brazil, containing features such as IPO comparison and detailed graphics about the companies financial information. The project was developed with **React and Javascript** and proposed by **B3**.
